## The Secret of a Good Figure

often lies in the brassiere. Hundreds of thousands of women wear the Bien-Jolie Brassiere for the reason that they regard it as necessary as a corset. It supports the bust and back and gives the figure the youthful outline which fashion decrees.

BIEN-JOLIE

## Facts About the Heart.

The weight of the average person's heart is only 11 ounces, yet so powerful is it that it does enough work every day to lift 120 tons a foot high! Your heart is, in fact, one of the most wonderful power machines for its size in existence. It beats about 70 times a minute, and with every beat drives six ounces of blood through the body. In a year the heart beats 30,000,000 times, and drives over 5,000 tons of blood through the body! Three score years and ten is a man's lifetime, and during that time his heart has moved enough blood to outweigh half a dozen of the biggest ships in the world! Let us look at this in another way. A pint of blood weighs roughly a pound, so that a little over three gallons of blood are forced through the heart every minute, or over one million five hundred thousand gallons a year.

## Lepraphobia.

The horror of leprosy is a religious horror. The Scriptural writers were not good at diagnosing diseases, and their accounts mix up leprosy with several other ailments that are highly infectious. Leprosy is not nearly so fatal as tuberculosis, and it is not so easily "catching." In fact, some doctors and nurses of lepers, who have attended them for years hold that it is not spread at all by contact. The terror still inspired by the traditions of the disease Doctor Rucker of the federal surgeon general's office properly dubs lepraphobia. At the meeting of the American Medical Association in Atlantic City he denounced the inhuman treatment of lepers and proposed the founding of a federal leprosy.

## Nautical.

It was in New York. The sea-faring man was steering a zig-zag course, yawing now to starboard and now to port. A young woman bound in the opposite direction sought to minimize the danger of a collision by making a wide detour. But the sea-faring man stopped dead. "Keep a straight course ahead, miss," he said gallantly; "let me do the tacking."
